NO.1 Which of the following options reflect the characteristics of fast elastic scaling of cloud computing? (Multiple choice)
A. Engineer C expanded the capacity of a cloud server in a cluster on the cloud computing platform to
10 during the Double 11 period, and restored it to 4 a week later.
B. Engineer B upgraded the CPU of an existing elastic cloud server from 2 to 4 on Huawei public cloud
C. Engineer A purchased an elastic cloud server on Huawei public cloud
D. Engineer D's cloud server was reclaimed by the cloud computing platform after it expired due to non- renewal.
Answer: AB

NO.2 If the disk data is lost, how to use the backup created in advance to restore the data? (Multiple choice)
A. Backup and recovery cannot be performed after the disk is deleted
B. Use backup to restore data to original disk
C. Create a new disk using the backup 18
D. Unmount the disk to recover data
Answer: BC

NO.3 Cloud computing is a computing model that can provide dynamically scalable virtualized resources to users in the form of services through the Internet.
A. True
B. False
Answer: A

NO.4 Which of the following descriptions about VPN gateway is wrong?
A. VPN gateway can be used to establish secure and reliable encrypted communication between the virtual private cloud and the enterprise data center or other regional VPCs.
B. The VPN gateway needs to correspond to the user's local gateway.
C. VPN gateway is the entry gateway device established in the virtual private cloud.
D. Each VPN gateway can correspond to multiple VPN connections.
Answer: C

NO.5 Which of the following operations does Huawei Cloud Database RDS backup policy support? (Multiple choice)
A. Turn off automatic backup
B. Set the backup time period
C. Set the backup cycle
D. Set the number of days to retain backups
Answer: ABCD

NO.6 Rapid elastic scaling includes many types. In addition to manual expansion or reduction, Huawei Cloud also supports automatic expansion or reduction according to preset policies. Scaling

can be to increase or decrease the number of servers, or to increase or decrease the resources of a single server.

A. True

B. False

Answer: A

NO.7 Which of the following options are the advantages of Huawei's Dynaudio architecture? (Multiple choice)

A. Cloud-edge-device collaboration

B. Extremely stable performance

C. Excellent performance

D. Extremely low cost

Answer: ABCD

NO.8 Cloud computing is a computing model that can provide dynamically scalable virtualized resources to users as services through the Internet. End users need to manage the infrastructure behind the cloud computing service.

A. True

B. False

Answer: B

NO.9 Huawei Cloud provides customers with a variety of service support plans, and has supported professional technical services for the entire process before, during, and after cloud migration. Which of the following is not a customer support service provided by Huawei Cloud?

A. Self-service

B. Professional Training

C. Service Guarantee

D. Intelligent Customer Service

Answer: B

NO.10 Which of the following descriptions about hybrid cloud is wrong?

A. Enable business resources to flow between public and private clouds

B. Applications can only be deployed in public clouds

C. Unified management of enterprise resources in public and private clouds

D. Achieve optimal resource allocation through hybrid cloud

Answer: B

NO.11 Drag and Drop Question

Please link the relevant concepts of Cloud Log Service with their corresponding explanations.

Log Group	The basic unit of log management in Cloud Log Service
Filters	The basic unit of log reading and writing
ICAgent	Basic tools for log collection
Log Stream	Log data keyword statistics component

Answer:

Log Group
Log Stream
ICAgent
Filters

NO.12 Which of the following descriptions about public cloud virtual private networks (VPNs) is wrong?

A. Fast deployment, real-time effect, no need to configure VPN devices on user DC to complete the connection between local data center and cloud services

B. The user's local DC can be interconnected with the VPC on the cloud, and the business can be quickly expanded to the cloud to achieve hybrid cloud deployment

C. Encrypts the transmitted data based on IKE and IPsec mechanisms, providing a high reliability mechanism

D. Use the Internet to build an IPsec encrypted channel, which is cheaper than cloud dedicated line services.

Answer: A

NO.13 Which of the following technologies or devices does the network security isolation function of Huawei Cloud Virtual Private Cloud (VPC) not rely on?

A. Hardware firewall

B. Software Firewall

C. Switch

D. Elastic IP

Answer: D

NO.14 OBS supports uploading both files and folders to OBS buckets.

A. True

B. False

Answer: A

NO.15 GaussDB is based on the Shared-Nothing architecture. Which of the following statements about the advantages of this architecture is wrong?
A. Data is fully shared between nodes
B. Adding nodes to achieve performance expansion
C. Parallel processing mechanism, easy to expand
D. Internal processing automation and parallelization
Answer: A

NO.16 In Huawei Cloud, a NAT gateway can add both SNAT and DNAT rules at the same time, and the two rules can share one elastic public IP.
A. True
B. False
Answer: A

NO.17 Which of the following options are correct about the relationship between Host Machine and Guest Machine? (Multiple choice)
A. After using virtualization technology, a host machine can only run one hypervisor at a time
B. With virtualization technology, multiple guest machines can run on one host machine
C. After using virtualization technology, a Guest Machine can only run on the Host Machine that created it
D. After using virtualization technology, a guest machine can use the resources of multiple host machines at the same time
Answer: AB

NO.18 Which of the following statements about elastic cloud servers is correct? (Multiple choice)
A. Users can create and delete virtual machines, reinstall, switch 0s, and power on and off.
B. Users can view information about their cloud server resources through the console interface
C. Users can add and unload extended network cards, add EIPs, mount and unmount disks, apply for keypairs, etc.
D. Users can flexibly and conveniently use public images, private images or shared images to apply for elastic cloud servers
Answer: ABCD

NO.19 Just like creating a VPN, after the user creates a public NAT gateway, Huawei Cloud will automatically assign a public IP address to the gateway.
A. True
B. False
Answer: A

NO.20 Which of the following functions does Huawei Cloud Enterprise Host Security HSS mainly include? (Multiple choice)
A. Malware Detection

B. Weak Password Detection
C. Remote login detection
D. Software vulnerability detection
Answer: ABCD

NO.21 Which of the following parts does the cluster architecture of Document Database Service (DDS) consist of? (Multiple choice)
A. mongos (routing)
B. Shard
C. Configuration
Answer: ABC

NO.22 Which of the following descriptions about Bare Metal Service BMS are correct? (Multiple choice)
A. BMS is more suitable for cloud-based business scenarios with high performance requirements
B. BMS is a free public cloud service
C. BMS is more suitable for OA business cloud scenarios
D. BMS can release resources in minutes
Answer: AD

NO.23 When using Huawei Cloud VPN service and IPSec VPN to achieve communication between VPC on the cloud and IDC off the cloud, encryption and decryption verification is performed on the firewalls/routers at both ends.
A. True
B. False
Answer: A

NO.24 Which of the following scenarios is the object storage OBS service applicable to? (Multiple choice)
A. Gene sequencing
B. Static Website
C. Big Data Analysis
D. Log Archiving
Answer: ABCD

NO.25 Which of the following parameters will not affect the cost calculation of the bare metal server BMS?
A. Memory capacity
B. Disk size
C. CPU Specifications
D. Number of network cards
Answer: D

NO.26 Which of the following descriptions about the role of VLAN is wrong?
A. Increase the interface bandwidth of the physical switch
B. Enhance network security
C. Improve the robustness of the network
D. Isolate broadcast domains
Answer: A

NO.27 The user deploys an ECS instance on HUAWEI CLOUD and deploys service A on it. When service A no longer needs to provide services, the user wants to deploy service B on the ECS with an operating system different from that used by service A. At this time, the system disk of the ECS needs to be replaced. In the process of performing this operation, which of the following descriptions are correct? (Multiple choice)
A. When replacing the system disk, you can choose a private image or a public image
B. In the case of a data disk, if the Windows system is replaced with a Linux system, since Linux cannot recognize the NTFS format by default, it is necessary to install a software recognition software separately.
C. After replacing the system disk, the snapshot of the existing system disk and the data on it will be lost
D. After replacing the system disk, the IP address of the ECS will change.
Answer: ABC

NO.28 Huawei Cloud SFS Turbo supports offline IDC access through cloud dedicated lines, VPNs, and cloud connections.
A. True
B. False
Answer: A

NO.29 Huawei Cloud tenants need to use VMs to deploy their application systems. This application system requires a highly secure isolated environment. Which type of cloud service is recommended for tenants?
A. Cloud Container Engine (CCE)
B. Elastic Cloud Server ECS
C. Dedicated Hosting
D. Bare Metal Server BMS
Answer: C

NO.30 Which of the following relational database services does Huawei Cloud provide? (Multiple choice)
A. GaussDB (openGauss)
B. GaussDB (for Mongo)
C. GaussDB (for Influx)
D. GaussDB (for MySQL)
Answer: AD

NO.31 Which of the following technologies or devices can isolate broadcast domains? (Multiple choice)
A. Hub
B. Router
C. VLAN
D. Firewall
Answer: BCD

NO.32 In order for a user to remotely connect to an ECS running the Linux operating system via SSH, which of the following ports should be opened in the security group inbound direction?
A. 53
B. 80
C. 22
D. 3389
Answer: C

NO.33 Cloud backup service CBR mainly consists of backup, storage library and ()
Answer:
Strategy
